

Accessibility Plan

The following information shows what is in position in this school for disabled students. All of these things allow us to increase the inclusion of students with disabilities in the school's curriculum.

The School Buildings and Contents

This is a fully accessible site on two floors. We have:

- Classrooms where all doors are suitable for wheelchair access
- Classrooms with adjustable desks that can accommodate wheelchairs
- Food tech room with adjustable work station
- Two lifts
- Disabled toilet with hoist and adult sized changing bed
- Staff trained in the use of Promove slings and emergency evacuation chairs, which are onsite
- An audit was completed by the mobility officer at West Sussex Sensory Support team, so that adaptations have been made for visually impaired students
- All classrooms are fitted with acoustically absorbent panels to walls and/or ceiling for hearing impaired students

Improving the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled

For students with any physical or sensory disability we work with the relevant departments at West Sussex County Council to ensure that we have the correct equipment and training to support students.

We currently have students using the following equipment to support their learning:

- Braille
- Supernova
- Radio aids

We also liaise with The Learning, Behaviour Advisory Team at West Sussex County Council, we support students with diagnoses of Autism Spectrum Condition (ASC) and Attention Deficit Hyperactivity Disorder (ADHD)
