

TRANSPORT & LOGISTICS

This sector is about moving, handling and storing goods, and passenger transport. It includes air freight, shipping, wholesaling, road haulage, freight forwarding, postal services and couriership.

Efficient distribution and storage is vital to many manufacturers across the UK, wholesalers and retailers, and efficient transport is important to commuters, shoppers and other travellers.

In the future low and medium skilled warehouse jobs will be at risk from automation, but more LGV and forklift drivers, customer services, supply chain and warehouse managers will be needed.
