# Our Training

The model of training that we provide primarily involves training in the classroom as well as regular focussed training days delivered by current, outstanding practitioners. We believe it is important to be in an innovative environment where you are supported and challenged to reach your potential. We also value the academic features of training to

teach so all our places come with a full PGCE from the University of Sussex. The Inspire and Bosco Teaching School Alliances will be delivering, in collaboration with our educational partners, all the training and professional development to you. We believe this will give a rich and varied experience to prepare you for success in your career.

## Inspire You
